

REMARKS

This Amendment After Allowance is presented for the purposes of correcting minor typographical errors in the title and in claim 8, correcting the dependency of claim 6, and adding new dependent claim 10. These last two changes had been made in a preliminary amendment filed May 4, 2001, but for some reason are not reflected in the Patent Office records.

It is submitted that the proposed amendment does not constitute such amendments to the drawings and specification as would constitute new matter or would require reexamination. It is submitted that the present Amendment After Allowance places the specification in better form for issuance of the patent. Entry of this amendment is respectfully requested.

Respectfully submitted,
THELEN REID & PRIEST LLP

25 January 2006
